Danish Association for Science and Technology Studies

Organizational structure of the DASTS Board

The DASTS board is organized in five Working Groups with each their area of responsibility.

Principles

1. All members of the Board contribute to DASTS through a Working Group (WG) – all deputies are also encouraged to join a group
2. WGs report to the DASTS Board and must adhere to the rules and regulations of the Association (foreningens vedtægter og forretningsorden)
3. Each WG is headed by a member of the DASTS Board
4. Ordinary DASTS-members can join WGs if relevant

5. WGs may present and discuss their work with ordinary members of the Association during the General Assembly.

Current Working Groups

1. Infrastructure & Organization – *responsible for the website, memberships, etc.*
2. Outreach & Communication – *responsible for newsletters, communication strategy, SOME-presence, etc.*
3. The Journal STS Encounters – *responsible for editorial work, special issues, identifying reviewers, etc.*
4. Early career researchers – *responsible for stimulating a strong research environment for early career researchers through meetups, PhD-courses, etc.*
5. Events & Conferences – *responsible for gathering experiences on the ASTS conferences, identifying future host-organizations, etc.*
