

Excellent Student Papers Series

ESPS 2018

# Excellent Student Paper Series

## About Excellent Student Paper Series (ESPS)

ESPS is established to provide student members of DASTS with an opportunity to showcase and disseminate excellent papers to the broad Danish STS community. We publish papers that have either received the highest grade (12), or have been recommended by the examiners. To keep this publication venue as open, quick and informal as possible, we do not review the papers, and we do not change their original formats. All contributors are asked to provide a brief description of the vision and motivation behind their papers.

The series is an initiative of the Danish Association for Science and Technology Studies (DASTS) and the STS En-counters journal.

Instruction: The evaluator prints several copies of the pdf form as a hand-out to the students. The students enter the website [https://www.dasts.dk/?page\\_id=4342](https://www.dasts.dk/?page_id=4342), fills out and submits the form.

The logo features the letters 'E', 'S', and 'T' in a stylized, overlapping, white-outlined font on a black background. Below the letters, the word 'Encounters' is written in a clean, white, sans-serif font.

**Tell us the story of your text in four short (tweet-length) statements:**

**1) What is the vision, the key idea or the problem you are writing about?**

**2) What motivated you to write this project?**

**Where or to whom might it be significant?**

The logo for STS Encounters features the letters 'S', 'T', and 'S' in a stylized, blocky font. The 'S' characters are composed of several overlapping rectangular shapes, while the 'T' is a simple, solid block. Below the letters, the word 'Encounters' is written in a clean, sans-serif font.
